Amcor Internship 2025 Opportunities For Undergraduates

Description

Amcor is a global leader in developing and producing responsible packaging solutions. We are seeking a Packaging Engineer to join our team and contribute to our commitment to sustainability, innovation, and excellence. The ideal candidate will play a critical role in designing and improving packaging solutions that meet customer needs while minimizing environmental impact.

Responsibilities

1. **Packaging Design:** Develop and optimize packaging solutions that meet customer requirements for protection, cost-efficiency, and sustainability.
2. **Material Selection:** Evaluate and select appropriate packaging materials, considering factors such as product compatibility, environmental impact, and cost-effectiveness.
3. **Testing and Validation:** Conduct package performance tests and analyze data to ensure packaging meets quality and safety standards.
4. **Cost Management:** Identify cost-saving opportunities in packaging materials and processes without compromising product integrity.
5. **Sustainability Initiatives:** Collaborate with cross-functional teams to drive sustainability efforts, including reducing waste and promoting recyclability.
6. **Regulatory Compliance:** Stay up-to-date with packaging regulations and ensure compliance in design and materials.
7. **Collaboration:** Work closely with product development, marketing, and manufacturing teams to align packaging with product strategies and goals.
8. **Continuous Improvement:** Implement lean and continuous improvement principles to enhance packaging processes and reduce waste.

Qualifications

- Bachelor's degree in Packaging Engineering, Mechanical Engineering, or a related field (Master's preferred).
- Proven experience in packaging design and development, preferably in a manufacturing or consumer goods industry.
- Strong understanding of packaging materials, manufacturing processes, and sustainability principles.
- Proficiency in computer-aided design (CAD) software and packaging simulation tools.
- Knowledge of regulatory requirements for packaging, including FDA, ISO, and environmental standards.
- Excellent problem-solving and project management skills.
- Strong communication and teamwork abilities.

Experience

- Minimum 3-5 years of relevant experience in packaging engineering.
- Experience with design software (e.g., SolidWorks, AutoCAD) and packaging testing equipment.

Hiring organization

Amcor

Employment Type

Intern

Duration of employment

6 months

Industry

Packaging

Job Location
