## Disney Internships WDW Industrial Engineering Co-Op Internship

### Description

Are you an aspiring industrial engineer looking for a chance to kickstart your career in a magical environment? If yes, then the Walt Disney World (WDW) Industrial Engineering Co-Op Internship in Orlando might be the perfect opportunity for you. This program is designed to provide hands-on training and real-world experience to young talents in the field of industrial engineering.

### Responsibilities

As a Co-Op Intern, you will be responsible for assisting the WDW Industrial Engineering team in various projects related to process optimization, capacity planning, cost analysis, and more. You will work closely with senior engineers and other team members to ensure timely delivery of projects while maintaining the highest quality standards. Additionally, you may also be assigned to support other teams within the organization to gain a broader understanding of Disney's business operations.

### Qualifications

To be eligible for this internship, you must be currently enrolled in an accredited university pursuing a degree in Industrial Engineering or a related field. You should have completed at least two years of coursework and be able to commit to a 6-month full-time program. Applicants should also possess strong analytical skills, excellent communication skills, and a passion for the Walt Disney Company's values.

### Experience

While previous internship or work experience is not required, having exposure to industrial engineering concepts, tools, and techniques will be advantageous. Applicants who have participated in engineering-related projects or competitions, volunteered in community service activities, or demonstrated leadership skills through extracurricular activities will be given preference.

### Skills

In addition to academic and technical skills, successful candidates should possess strong interpersonal skills, be adaptable to changing environments, and have the ability to work collaboratively in a team setting. A keen eye for detail, excellent time management skills, and proficiency in Microsoft Office Suite are also desirable.

### Job Benefits

Apart from gaining valuable experience in industrial engineering and exposure to the operations of one of the world's most recognized brands, interns will receive a competitive salary and benefits package. They will have access to exclusive events, networking opportunities with Disney professionals, and resources for personal and professional development.
