Grasim Industries Internship Program For Undergraduates

Description

Grasim Industries, a leading conglomerate in the Indian industrial sector, is seeking an experienced Operations Manager to oversee and optimize our manufacturing operations. As an Operations Manager, you will play a pivotal role in ensuring efficiency, quality, and safety in our production processes. If you are a dynamic leader with a passion for operational excellence, this is an exciting opportunity to contribute to a renowned organization.

Responsibilities

1. **Production Management:** Lead and manage the day-to-day operations of our manufacturing facilities, ensuring smooth production processes, quality control, and adherence to production schedules.
2. **Resource Allocation:** Efficiently allocate resources, including manpower, equipment, and materials, to meet production targets while optimizing costs.
3. **Quality Assurance:** Implement and monitor quality control measures to maintain high product standards and compliance with industry regulations.
4. **Safety and Compliance:** Ensure a safe working environment by enforcing safety protocols, conducting regular safety audits, and complying with all relevant regulations and standards.
5. **Process Improvement:** Identify areas for process optimization and efficiency improvements, working closely with cross-functional teams to implement changes.
6. **Inventory Management:** Oversee inventory levels, minimize wastage, and ensure timely procurement of raw materials and supplies.
7. **Team Leadership:** Build and lead a high-performing operations team, providing coaching and mentoring to develop skills and enhance productivity.

Qualifications

- Bachelor's degree in Engineering, Operations Management, or a related field (Master's degree preferred).
- Proven experience in operations management, preferably in a manufacturing environment.
- Strong knowledge of production processes, quality control, and safety standards.
- Excellent leadership and team management skills.
- Analytical mindset with the ability to identify and resolve operational challenges.
- Effective communication and interpersonal skills.

Experience

- Minimum of 7-10 years of relevant experience in operations management.
- Previous experience in a leadership role overseeing manufacturing operations is highly desirable.
