Larsen & Toubro Internship Program For Students

Description

Larsen & Toubro (L&T) is a leading global engineering and construction company with a legacy of excellence dating back decades. We are seeking a highly skilled and experienced Senior Project Manager to join our team. As a Senior Project Manager at L&T, you will play a critical role in overseeing and delivering complex engineering and construction projects, contributing to our reputation for excellence in the industry.

Responsibilities

1. Project Leadership: Lead and manage large-scale engineering and construction projects from inception to completion, ensuring adherence to timelines, budgets, and quality standards.
2. Team Management: Build, mentor, and manage project teams, including engineers, contractors, and subcontractors, to achieve project goals.
3. Budget and Resource Management: Develop and manage project budgets, allocate resources efficiently, and optimize project costs.
4. Risk Management: Identify potential project risks and develop mitigation strategies to ensure project success.
5. Client Relations: Foster strong relationships with clients, understand their requirements, and ensure client satisfaction throughout the project lifecycle.
6. Quality Assurance: Enforce quality control processes, compliance with industry standards, and safety protocols.
7. Reporting: Prepare regular project status reports for senior management and stakeholders, highlighting key milestones and challenges.
8. Innovations and Improvements: Continuously seek opportunities to improve project delivery processes and implement innovative solutions.
9. Regulatory Compliance: Ensure compliance with all relevant laws, regulations, and permits related to the project.
10. Project Closure: Oversee project handover, documentation, and finalization, including lessons learned and post-project evaluations.

Qualifications

- Bachelor's degree in Engineering or a related field (Master's degree preferred).
- Minimum of 10 years of experience in project management within the engineering and construction industry.
- Proven track record of successfully managing and delivering large-scale projects.
- Project Management Professional (PMP) or equivalent certification is a plus.
- Strong knowledge of engineering and construction processes, regulations, and industry best practices.

Experience

- Exceptional leadership and team management skills.
- Excellent communication and interpersonal abilities.
